

Basic: Spend 1 minutes applying camouflage as per Proficient Stealth. For 30 minutes may use Basic Stealth in daylight as long as you don't move. Requires cover.

Proficient: Requires Proficient Stealth to use. When using Disguise with Proficient Stealth reduce expenditure to 1 Mind and the skill is active for a full hour instead of 30 minutes

Master: Requires Master Stealth to use. Spend 10 Mind points and apply makeup and costuming to a Target as per Proficient Stealth to allow them to use Disguise for 1 hour.

Shadow: Spend 20 Mind and 1 Resolve to emBody a completely different identity. The identity lasts for 24 hours and requires a full costume makeup and identity change. If questioned in any fashion the Shadow may answer as this new identity rather than as their true identity. Death does not end this effect. This effect is considered a disguise.
