

Basic: The user of this kit may hold a performance for a group of people, taking at least 10 minutes of Full Engagement and Active Roleplay. At the end of the performance, they may spend 1 Resolve and point to up to five separate Targets who were present throughout the performance and call 'Entertain - regain 10 Mind'. A second Resolve may be expended to add 10 more Mind regained for each target. If the performance takes place in a Dive Bar, add 5 Mind regained for each Target. The character's name and player number should be noted on the item when created; the kit is usable only by that character.
